Has Produced Over 700,000,000 Ounces of Silver.

# NOW BEING EXAMINED

ONE OF RICHEST COPPER MINES IN THE WORLD.

One of the oldest mines in the world It woing to be worked Itah capital, if the plans of A. W. Cune are carried out. The mine is in Peru, 14,000 Another Stockholder Files a Protest

Mr. McCune said he had had good reports lately from his Montana bonanza, the Watseka. "The Watseka is getting better all she time as we go further into it," he continued. "Quite recently we broke into a chute of high-grade ore where the indications had been that the ground was barren. Developments at the property are of a most encouraging nature, and promise to accome more so as the time goes on."

### FINE ORE IN PLANETARY. Seven Feet of It Struck at Depth of

Word reached the city from Park Valley yesterday that W. H. Weyer, who is operating the Planetary group, has just opened up, seven feet of nigh-grade gold and sliver ore at a depth of 160 feet in the shaft, and the report says there is great rejoicing in camp over the strike.

W. H. Weyer and John W. Snell, both of whom are heavy owners in the property, are understood in be operating the mine under a lease and bond from their associates. The figure named in the bond is reported to be on a basis of 33,000 for the whole, and men acquainted with the ground yesterday declared that the gentlemen were sure to develop a bonarza.

Park Valley is just beginning to make a strik messached this city that Messrs. Kimberiey and Snyder had agreed to abandon their \$6,000,000 eorgoration plan on the Dalton & Lark properties at Bingham, and bad made a tender of their entire holdings to the Bingham, and bad made a tender of their entire holdings to the Bingham, and bad made a tender of their entire holdings to the Bingham, and bad made a tender of their entire holdings to the Bingham, and bad made a tender of their entire holdings to the Bingham, and bad made a tender of their entire holdings to the Bingham, and bad made a tender of their entire holdings to the Bingham, and bad made a tender of their entire holdings to the Bingham, and bad made a tender of their entire holdings to the Bingham, and bad made a tender of their entire holdings to the Bingham and bad made a tender of their entire holdings to the Bingham and bad made a tender of their entire holdings to the Bingham and bad made a tender of the stockhalders of the stockhalders of the Bingham, and bad made a tender of their entire holdings to the Bingham and bad made a tender of the stockhalders of the stockhalders of the Bingham and bad made a tender of the stockhalders of the Bingham and bad made a tender of the stockhalders of the Bingham and bad made a tender of the stockhalders of the Bingham and bad made a tender of the stockhalders of the stockhalders of the stock

Tons a Day.

After visiting the mire and noting the mmense tonninge of ore that developent is constantly adding to the re rves in the Century mine at Park alley, Manager White and the direct-ate has reached the conclusion that te new mill, the size for which is now readiness for the construction gang, hall consist of thirteen stamps, instead half consist of thirteen stamps, instead of ordering seven stamps, to add to three already in use at the hittle mill now pounding out heart the hittle mill now pounding out heart ween \$5,000 and \$6,000 a month, a complets ton-stamp piant will be installed, and the three stamps now in use will be added. With a mill of that capacity the company will be able to treat close to fitty tons of ore daily, and clean up close to \$20,000 per month. All the material has been ordered, and some of it is beginning to arrive on the ground. With good luck, therefore, the new plant should be in commission during the first week in June.

### STRIKE IN THE HERCULES. Neighbor of Northern Light is Sack-

ing Very Rich Ore. Advices from camp yesterday were to the effect that Sam Pollock, lessee of the Hercules property on Lion hill, ad-joining the Northern Light, has just dropped into eighteen inches of very rich ore that is now being taken out fine ore were recently marketed from this property, but it is said that the material nor being taken exceeds in quantity and value anything ever beore found in the mine. A shipment is

## GREEN RIVER OIL COMPANY. Formed to Operate Sixteen Claims in

Grand County. The Green River Oil company was in-corporated in this city yesterday with a capital stock of \$250,000, in 25-cent shares, to develop petroleum deposits along Green river in Grand county, James H. Moyle is president; George Romney, sr. vice president; Fred C. the corporation are sixteen cialms, known as the Romney, Dinwoodey, Laird and Bassett groups

### LOWER MAMMOTH SECRETARY. S. J. Paul Resigns and Joshua Bean Succeeds Him.

At a meeting of the board of directors of the Lower Mammoth company yesterday afternoon, the resignation of S. J. Paul as secretary was needeted, and Jethna Bear was chosen to fill the vacancy. At the same time it was decided to remove the company's headquarters from the Progress block to Manager Ramberger's offices. His stock broker. Bamberger's offices. His stock broker-age and other private business affairs

## MAMMOTP DEAL FAILS.

Belief That Grand Central Option Will Share Same Fate

With no advices from either New York or Boston to the contrary, there is no longer any doubt that the deal Manha for the Mammoth has fallen through. It is not at all surprising that such is the outcome, for the time in which to handle the undertak us was ridiculously short in the first place, and with Mr. McIntyre's firm decision to allow he additional time, the result could Raby have been otherwise. a additional time, the result could arditional time, the result could ardit have been otherwise.

With the failure of the big combination to connect on the Mammodh, the belief is general that the Grand Central option, though it has until June 1 to run, will meet the same late. It is argued that had the Mammoth been taken, the purchasing arower could have fanded the Grand tentral and Teerral avoided the serious litigation now on U. Sunbarm.

between the two companies. As it is, with a new trial of the original dam, age action ordered, the hig combine will hardly care to buy such a legacy even should the report on the property be unexpectedly favorable.

In well informed circles the sentiment prevailed yesterday afternoon that the next properties to receive attention would be the Bullon-Beck and Star Consolidated. Indeed, it will not be surprising to hear any day that a complete examination and sampling of one or both has been ordered, for the fact that a preliminary inspection of them has already been made is known to everybody.

With a new trial of the original dam, age of \$1 \text{ 60} \text{ 61} \text{ 62} \text{ 63} \text{ 64} \text{ 63} \text{ 64} \text{ 64} \text{ 65} \text{ 65} \text{ 65} \text{ 65} \text{ 66} \text{ 65} \text{ 67} \text{ 67} \text{ 67} \text{ 68} \text{ 69} \text{ 68} \text{ 68} \text{ 69} \text{ 69} \text{ 68} \text{ 69} \ hem has already been made is known to everybody.

Without any additions, however, the combination has in the Bingham, Tesora, and the Dalton & Lark groups territory sufficient to afford an immense tonnage for an indefinite number of years, and now that the \$10,000,000 reorganization, spoken of in The Herald upon Willand F. Snyder's return, has been arranged, there is no doubt that extensive operations will be turn, has been arranged, there is no doubt that extensive operations will be under way in a very short time.
